DON ARONOW'S NEW BOAT

■ ■ ■ What if a group of Don Aronow's friends got together, took one of the deceased racing legends famous Cigarette boat designs and built a new model based on it? That's the intention of a few of Aronow's old pals, including Charlie McCarthy and Bobby Saccenti. The project has the blessing

of Aronow's son, Michael. The group has plans to launch a sportboat modeled after the one shown above, with a twist: It will be powered by outboards.
